

## **Visit to a Water Park**

Trips and excursions play a vital role in the development of the children. DPS fraternity has always believed in providing exposure to the students by organizing such trips.

The trip to the water park was another effort towards providing a fun filled time to the students in the company of their peers.

They had an enjoyable time beating the heat, shedding their inhibitions by taking breath taking rides and dancing to the latest tunes. We hope to offer many more such cherished memories in times to come.
